

CABO-OUTFITTERS

CABO PULMO

Full Day Kayaking & Snorkeling

Duration: Approximately 8 hours

Available Year Round

DESCRIPTION

It's not quite a 2 hour drive to reach Cabo Pulmo, the National Marine Park, north of Los Cabos along the East Cape. Depending on the season, visit Los Arbolitos beach, La Sirenita beach, the remote sea lion colony or Los Frailes bay. Kayak in the beautiful blue waters and snorkel above the reef. It's a protected area, so the fish and marine life are found in abundance! Cabo Pulmo has such a large variety of underwater life species that it was proclaimed "The aquarium of the world" by Jacques Cousteau.

A perfect place to escape Los Cabos for the day and get back to nature!
